

phyto power

PhytoPower is an amazing combination of probiotics, prebiotics, whole foods, and digestive enzymes, blended to create and cultivate the perfect gut microbiome environment.

HOW DOES IT WORK?

First, over 20 billion CFUs of probiotics spread all throughout the gut to promote a healthy and active gut microbiome. Those probiotics are fed by prebiotic “fertilizer,” and help the body absorb the unique phytonutrients contained in each whole-food color blend. Finally, five unique digestive enzymes help your body break down a variety of foods and lay the groundwork for better probiotic activity.

YOU’LL LOVE THIS

PhytoPower’s exclusive blend of enzymes helps your body break down and digest fat, protein, dairy, plant fiber and more!

WHAT YOU’RE GETTING IN EVERY SERVING:
